**CAUTION.** In some of the screen fabrics, the front and back side of the fabric differ in appearance and light transmission properties. In the pattern, these fabrics are presented by 2 samples: "front" and "back". As a standard, the "front" of the fabric is on the outside of the building and the "back" is by the room side.

If you want to "invert" the sides, please select the "back" option. ******

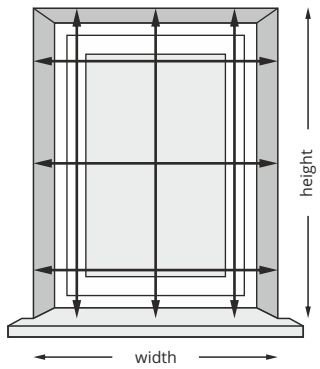
DIMENSIONING

By installation in a recess, the measurement should be taken in 3 places and the **smallest value** should be specified in the order.


Allowing for a slight mounting clearance should be taken into account.
