width [mm]	height [mm]	quantity [pcs]	colour	type of control				control [A/B/C/D]	mounting brackets [A/B]	cable side guide	bottom brackets (used with cable side guide) [B/C]	**** ladder type			height of mounting*	notes
				cords	ball chain **		motor ***					cord	tape			
					silver	gold							25mm	38mm		

* Necessary to make the product that meets safety standards especially in terms of protecting young children from strangulation of the hanging loop.
** **CAUTION** - the order for venetian blinds controlled by ball-chain should specify the rail width - the lamellas are 10 mm narrower than the rail.

*** In case of choosing electric motor control, please enter the selected motor's model in the comments.
****The colour of the ladder - by default, it is applied the most similar colour to the colour of the selected slat, if you want to use a specific colour, please state the symbol from the pattern book. Tape ladder -5% surcharge.
