variant [no.]	width [mm]	height [mm]	quantity [pcs]	fabric name	slanting masking-rail [only in var.: 1, 4, 8, 9, 10]	control [only variant 13, 14, 15]	handle		type of bracket	colour of rail	steel cable	control wand (colour and length)**	height of mounting*	magnets [variants 4, 5, 9, 10]
							*** transparent	in colour of rail						

Not rectangular shaped variants – please draw (indicate dimensions).

Colour of rail – according to pricelist.

Mounting brackets (see the picture): – in case you don't indicate type- we use type A

– in case you don't indicate the type of handle we use the one in colour of rail.

*** the transparent handle is used with a control wand for pleated blind control.

** max length 2000 mm, colour: white, silver.

* necessary to make the product that meets safety standards especially in terms of protecting young children from strangulation of the hanging loop.

**** in pleated blinds wider than 1000 mm, a reinforced rail is used (in variants 1, 4, 5, 6, 8, 9, 10).

BRACKETS		
cord mounting	rail mounting	
		Brackets type A. Mounted by the glass.
		Brackets type B. Surface mounting.
		Brackets type C. Non-invasive mounting.
