1. In case you don't indicate type of guide channels – we use standard guide channels.

2. Insect screens are made only with gray net.

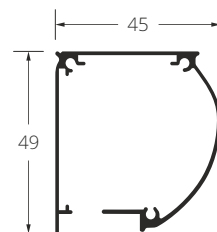

3. Painted insect screens require indicating colour of PVC elements. Available PVC colours : white, brown and black.

* side is defined by looking from the inside of the room to the outside, it means::

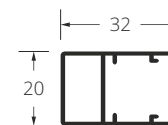

single – view from within.

double – view from with in – specify the mounting side for the fixed part.

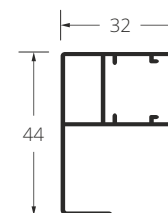

Pic.1 Cassette.

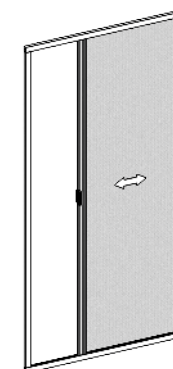

Pic.2 Standard guide channel.

Pic. 3 Guide channel with off set.

Single.

Double.
