Available control options

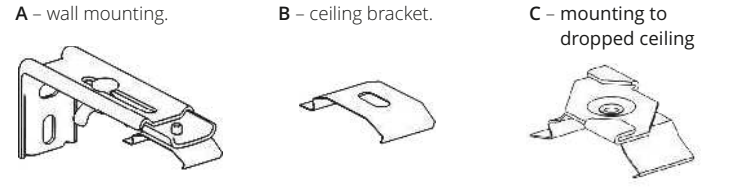

Joining the vertical blinds (variant 8)

Joining the vertical blinds - this is an option consisting in a special preparation of the rails for vertical blinds mounted next to each other. Thanks to it, you can combine various controls and any number of rails. In the case of joining more than two verticals, their order should be given, i.e. which ones are extreme and which are in the middle, etc.

*** In case of ordering variant 8, the total width of the vertical blind and the width of each rail should be given.

Available brackets

* necessary to make the product that meets safety standards especially in terms of protecting young children from strangulation of the hanging loop.
** silver and black colour - sur charge 5 € rm.
